– Prices do not include applicable franchise fees and taxes.

LARGE BUSINESS PHONE SERVICE

CNS, as a Competitive Local Exchange Carrier, has the ability to serve larger customers who need nine or more phone lines. PRI, 1FB and SIP services are provisioned over CNS' fiber system. CNS also owns and operates a local phone switch, maintains an E911 database, as well as calling name and number databases.

CNS will also work directly with your existing internal network technician(s) to ensure a smooth transition of service.

Visit cns-internet.com for a complete list of available calling features!

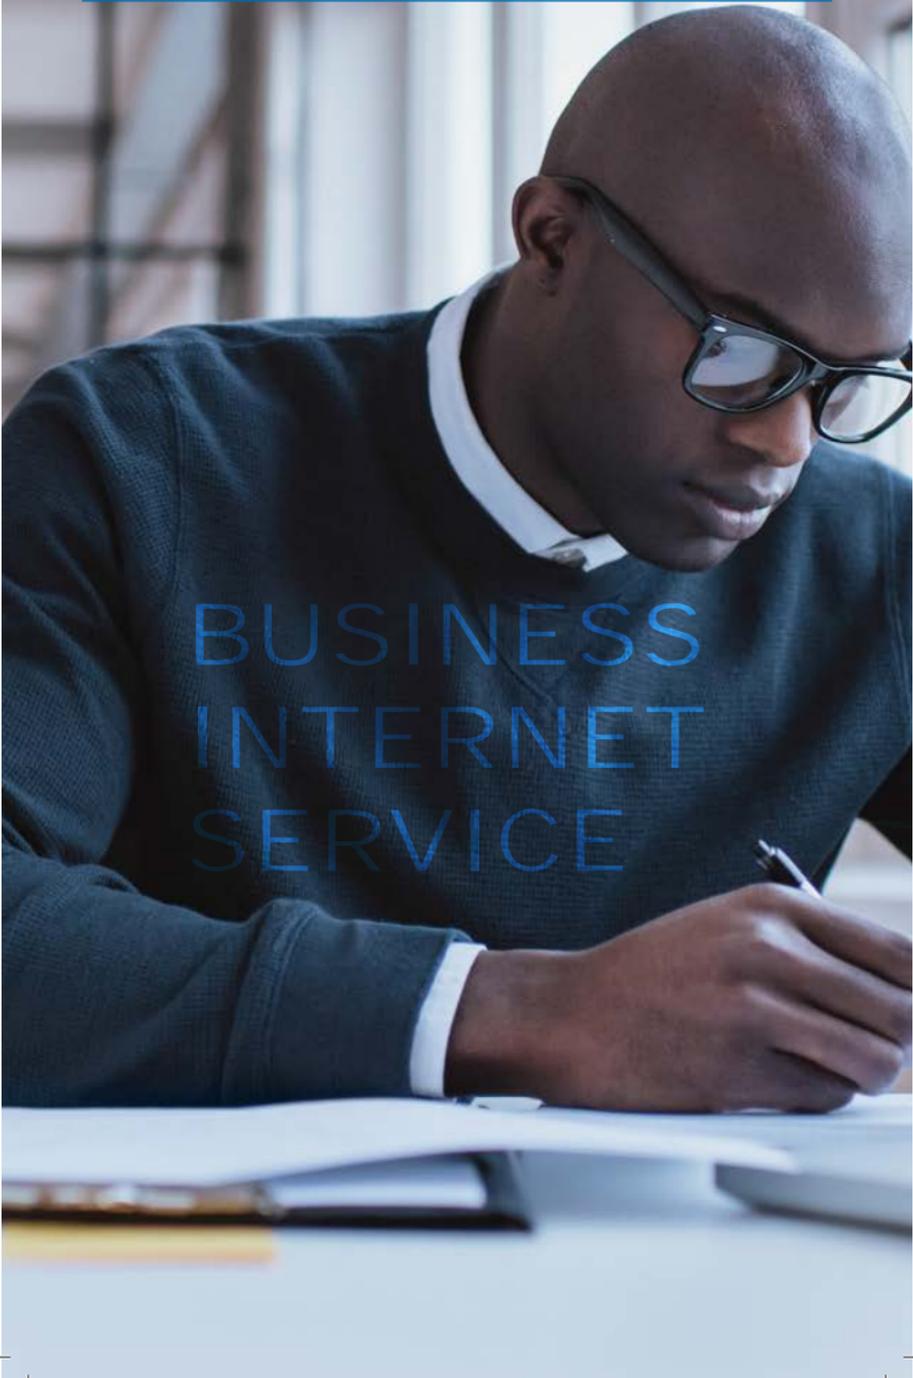

BUSINESS CLASS PHONE SERVICE

***Add Voice Mail for only \$5 per month*

*Other CNS Telephone packages available. *Prices do not include applicable franchise fees and taxes.*

CNS' Business Internet Service provides a fast, cost-effective, scalable connection to meet your business' needs, with speeds up to 150 Mbps. All of CNS' Internet services come with up to six static IP addresses which can be used for virtual private networks (VPN), mail servers and Web servers. Each CNS Commercial Internet account comes with up to six free e-mail accounts.

BUSINESS INTERNET SERVICE

FAST

6 Mbps / 1 Mbps | \$44.95

Very light e-mail usage or credit card machine lines.

15 Mbps / 2 Mbps | \$50.95

Great for small offices with one or two light Internet users.

FASTER

35 Mbps / 3 Mbps | \$79.95

Multiple users who frequently use the Internet and with limited media streaming.

50 Mbps / 5 Mbps | \$179.95

Users who receive larger files, such as graphic designers, architects and engineers.

50 Mbps / 20 Mbps | \$219.95

The 4X upload speed allows users to send large files on the fly.

FASTEST

110 Mbps / 10 Mbps | \$269.95

Multiple users simultaneously accessing the Internet and occasional video conferencing.

110 Mbps / 20 Mbps | \$299.95

Increased upstream allows for faster back-ups. Multiple video conferencing users.

150 Mbps / 10 Mbps | \$299.95

Simultaneously send/receive large files; large inbound/small back-ups. Multiple user video conferencing.

150 Mbps / 20 Mbps | \$345.95

Increased upstream speed allows larger back-ups/file uploads. Remotely access on-site video cameras. HD video conferencing multiple users.

CNS boasts redundant network connections to multiple, independent, major access providers, which minimizes chances for loss of connection. CNS also features direct connections to content providers such as Netflix, Microsoft, Google, Facebook, Twitter, Amazon and many more, which serve to decrease latency as well as improve reliability.
