INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and City Council
City of Moultrie, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Moultrie, Georgia ("the City") as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the pension related schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the other required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules and the One Percent Special Purpose Local Option Sales Tax Project Cost Schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual fund statements and schedules, the schedules of Special Purpose Local Option Sales Tax Expenditures, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules, the schedule of Special Purpose Local Option Sales Tax Expenditures, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 8, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Respectfully submitted,

Valenti, Rackley & Assoc., LLC

CITY OF MOULTRIE
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE
 STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED SEPTEMBER 30, 2020

Net change in fund balances - total governmental funds \$ 2,807,714

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets.

Assets capitalized	2,037,710
Basis in capital assets disposed of (including \$1,720,532 in net position transferred to MCCPRA and reported as a special item)	(2,118,813)
Depreciation expense	(1,149,084)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transactions has any effect on net assets. Also, governmental funds report the effect of premiums and discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. These amounts are the net effect of these differences in the treatment of long-term debt and related items.

Proceeds from borrowing	(274,764)
Debt payments made	122,758

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the change in deferred revenue over prior year.

Deferred revenue - property taxes	(11,453)
-----------------------------------	----------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This the amount of the change in expenses over the prior year.

Pension cost	(144,017)
Compensated absences	16,756

An internal service fund is used by management to charge the costs of the City's services to individual funds. The net revenues (expenses) of the internal service fund is reported with governmental activities in the statement of net position.	(352,552)

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Moultrie, Georgia (the City) have been prepared in conformity with accounting principles generally accepted in the United State of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

Reporting Entity

The City of Moultrie, Georgia was created in December 1879, under the provisions of an act by the General Assembly of the State of Georgia. The City's Charter provides for a Council/Manager form of government. The City Manager is the head of the administrative branch of government and is responsible for the day-to-day operations of the city government. The legislative authority of the City is vested in the Mayor and six Council members with an appointed City Manager. The City provides the following services and operations as authorized by its charter: public safety (police and fire), public works, airport, animal control, emergency management, and public utilities (water and sewer, gas electric, solid waste, broadband services and mass transit).

The financial reporting entity has been determined by management in accordance with generally accepted accounting principles to be the City of Moultrie, Georgia (the primary government) and its component unit. A component unit is a legally separate organization for which the primary government is financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. In evaluating how to define the government for financial reporting purposes, management has considered all component units.

The criteria used to determine financial accountability are the ability of the primary government to appoint a voting majority of the organization's governing body, and effectively impose its will on the organization. Also, if there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government, financial accountability would exist. Based upon the application of these criteria, the following is a brief review of the component unit included in the City's reporting unit as a discretely presented component unit.

Downtown Development Authority of the City of Moultrie

The Downtown Development authority of the City of Moultrie (the Authority) plans and develops the downtown area of the City in order to attract new business and residents. The City possesses the authority to review, approve and revise the budget and governs collection and disbursement of funds. The Authority is reported as a proprietary fund type component unit. Separate financial statements are not issued.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-wide and Fund Financial Statements

The government-wide financial statements (Statement of Net Position and Statement of Changes in Net Position) report information on all non-fiduciary activities of the primary government and its component unit. As a general rule, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is accountable.

The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those what are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government – Wide Financial Statements

The City's government-wide financial statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of governmental and business-type activities for the City. Fiduciary activities of the City are not included in these statements.

These statements are reported using the *economic measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and the fiduciary fund financial statements. Accordingly, all the City's assets and liabilities, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in assets. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the City are reported in three categories: 1) charges for services to customers who directly benefit from goods, services or privileges provided by a given function, 2) operating grants and contributions that are restricted to meeting the operational needs requirements of a particular function, and 3) capital grants and contributions that are restricted to meeting the capital needs requirements of a particular function. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

provider have been met. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Certain eliminations have been made as prescribed by GASB Statement of Accounting Standards No. 34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments* in regards to interfund activities, payable, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated, however those transactions between governmental and business-type activities have not been eliminated. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Fund Financial Statements

Governmental Fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. Governmental Fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Accordingly, only current assets and current liabilities are included on the Balance Sheets. The Statement of Revenues, Expenditures, and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. The City considers revenues to be available if they are collected within sixty days after year end. Those revenues susceptible to accrual are property taxes, franchise taxes, licenses, and investment income. All other revenue items are considered to be measurable and available only when cash is received by the City. Expenditures generally are recorded when a liability is incurred. However, debt service expenditure, as well as expenditure related to compensated absences and claims and judgements, are recorded only when payment is due.

The City reports the following major governmental funds:

The *General Fund* is the principal fund of the City and is used to account for all of its activities not otherwise accounted for by a specified fund.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Additionally, the City reports the following governmental fund types:

The *Special Revenue Funds* are used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

The *Capital Projects Funds* are used to account for financial resources for the acquisition or construction of major capital facilities and improvements other than those financed by Proprietary Funds. These projects are financed through budget appropriations, revenue bonds, sales tax proceeds and general obligation sales tax, and capital leases.

Proprietary Funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting* and are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Enterprise Funds account for activities that are usually self-sustaining, principally through user charges for services rendered.

The City reports the following major enterprise funds:

The *Water and Sewer Fund* accounts for the provision of water and sewer services to the residents of the City. All activities necessary to provide such services are accounted for in this fund.

The *Electric Revenue Fund* is used to account for equipment services for the departments of the City on a cost reimbursement basis.

The *Fiduciary Fund* is reported using the *economic resources measurement focus* and the *accrual basis of accounting* and is used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. The City reports the following fiduciary fund:

The *Pension Trust Fund* is used to account for the activities of the City's Employee Retirement Plan, which accumulates resources for pension benefit payments to qualified City employees.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Component Units: All component units are reported using the *economic resources measurement focus basis* and the *accrual basis of accounting*. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles except that encumbrances are treated as budgeted expenditures in the year of the incurrence of the commitment to purchase. Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored through subsequent years' budget appropriations.

Cash and Cash Equivalents

Cash and cash equivalents, as reported in the statements of cash flows, includes amounts in demand deposits, amounts with fiscal agents and investments with an original maturity at three months or less.

Investments

Statutes authorize the City to invest in obligations of the U.S. Treasury, other U.S. Government agencies and the State of Georgia, other countries, municipal corporations and political subdivisions of the State of Georgia, and pooled investment programs sponsored by the State of Georgia for the investment of local government funds.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. The fair values of investments in external investment pools are the same as the value of the pool shares.

Receivables

Receivables are Due from Other Governments represent funds to be received from other local governments, state grant in aid, state contracts, or federal funds. No allowance is deemed necessary to these receivables.

All trade and property tax receivables have been reduced to their estimated net realizable value and are shown net of an allowance for doubtful accounts. Estimated uncollectible amounts are based upon historical experience rates.

Inventories

Inventory in enterprise funds is valued at the lower of cost or market, using the first-in, first-out method. Inventory in the General Fund is valued at cost and consists of expendable supplies held for consumption. The City accounts for inventory on the purchase basis.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Prepaid items

Payments made to vendors for services that will benefit future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements.

Interfund Receivables/Payables

Outstanding balances between funds at the end of the fiscal year are referred to as either "Due From Other Funds" or "Due To Other Funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "Internal Balances".

Restricted Assets

Proceeds from certain revenues and other resources in the General Fund, Special Revenue Funds, and Capital Projects Funds are classified as restricted assets on the balance sheet because they are maintained in separate accounts and their use is limited by applicable statutes or agreements. The Water and Sewer Fund, based on certain bond covenants, are required to establish and maintain prescribed amounts of resources, consisting of cash and temporary investments that can be used only to service outstanding debt.

Capital Assets

Capital assets, which include property, plant equipment, and infrastructure assets (e.g. roads, bridges, sidewalks and similar items) acquired prior to September 30, 1980, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City's policy has set the capitalization threshold at \$5,000 for reporting capital assets and \$25,000 for infrastructure assets. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction period of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. The amount of interest capitalized is calculated by offsetting interest expense incurred (from the date of borrowing until the date of completion of the project) with interest earned on investment proceeds over the same period. No interest was capitalized during the year.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Depreciation is provided on the straight-line method over the following estimated useful lives:

Governmental Assets

Buildings and improvements	50 years
Machinery and equipment	5 -15 years
Infrastructure	25 years

Business-type Assets

Buildings and improvements	5 - 50 years
Improvements other than buildings	2 - 50 years
Machinery and equipment	3 - 50 years

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to future periods and thus, will not be recognized as an outflow or resources (expense) until then. The City has two items that qualify for reporting in this category. The first is the deferred charge on refunding in the government-wide statement of net position and the Proprietary Funds Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is outflows from changes in the net pension liability.

Deferred Inflows of Resources

In addition to liabilities, the City will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of the net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds and government-wide statement of net position report unavailable revenues from property taxes, grants and fees. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Compensated Absences

City employees accrue vacation in different amounts, according to the number of years of service. Employees under ten years of service accrue two weeks of vacation each year. Upon reaching ten years of service, employees can accrue three weeks per year. These days can be taken either by time off or by payment upon retirement. (Employees who are terminated forfeit all vacation time they have not taken at the time of termination.)

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Employees earn sick leave in proportion to actual hours worked. Sick leave, however, is not paid upon termination if termination is by manner other than death or retirement. Employees can accrue up to a maximum of 720 hours of sick leave and will be paid up to 50% of the hours accrued at the time of retirement based on the age of the employee at retirement. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds when it is expected to be liquidated with expendable available resources.

Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

Pursuant to GASB Statement of Accounting Standards No. 32 *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, the city does not have a fiduciary relationship with the Plan. Accordingly, the balances and transactions of the City's 457 plan are not reported in the City's financial statements.

Long-Term Obligations

In the government-wide financial statements, proprietary fund types in the fund financial statements, long-term debt, other long-term debt obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which is not significantly different than the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the issue is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity

Beginning with fiscal year 2011, the city implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions". This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Nonspendable fund balance – amounts that are not in spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a formal action of the City council through adoption of a resolution. Only the City Council may modify or rescind the commitment;
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balances – amounts that are available for any purpose; positive amounts are reported only in the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it is the policy of the City to generally consider restricted amounts to have been reduced first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the policy of the City that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts. In both instances, when a proposed expenditure is made with specific balances identified as the source of the funding, that specific fund balance will be used.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve the portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund, Special Revenue Fund and Capital Projects Funds. Encumbrances outstanding at year end are reported as reservations of fund balances since they do not constitute expenditures or liabilities. Unencumbered appropriations lapse at the end of the year. Encumbrances are re-appropriated in the following year, except for encumbrances in the Capital Projects Funds which are continuing. Encumbrances do not represent GAAP expenditures. On September 30, 2020, there were no encumbrances outstanding.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 2 – BUDGETS AND BUDETARY ACCOUNTING

Budget Process

The annual budget document is the financial plan for the operation of the City. The budget process exists for the purpose of providing a professional management approach to the establishment of priorities and the implementation of work programs while providing an orderly means for control and evaluation of the City's financial position. An annual operating budget is prepared for the General Fund, Special Revenue Fund, and Enterprise funds.

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

- 1) Budget requests are completed in July.
- 2) Proposed budgets are reviewed and prepared by the Finance Director and approved by the City Manager before submission to the Mayor and the City Council in August.
- 3) Public hearings on the proposed budget are held in August and September.
- 4) The budget is legally adopted by the Mayor and the City Council in September.
- 5) All budget revisions must be approved as required by Georgia law and administrative policy. Transfer of budgeted amounts in the excess of \$5,000 between object categories within departments requires the approval of the City Council. This is consistent with the legal level of budgetary control as the budget is adopted at the object category level. Revisions that alter the total expenditures of any department or fund must be approved by the City Council.
- 6) Formal budgetary integration is employed as management control device during the year for the General Fund, Special Revenue Fund, Capital Projects Funds, and the Enterprise Funds.
- 7) Budgets for the General Fund, Special Revenue Fund, and the Enterprise Funds are adopted on a basis consistent with accounting principles generally accepted in the United State of America.

Capital Projects Budget

The construction of certain major capital facilities and improvements, which are accounted for by the City in the Capital Projects Fund, are subject to budgetary control on a project basis. The budgets are approved by the City Council and are generally subject to specific provisions of voter referendums, State Statues, and/or grant agreements. Appropriations for a specific project do not lapse until completion of the project.

Deficit Fund Balances/Net Position in Individual Funds

The following funds had deficit net positions as of September 30, 2020:

Internal Service Fund - \$284,886
Utilities Deposit Fund - \$23,998

The net position deficits above are expected to be reduced through interfund charges for the Internal Service Fund and through transfers from reserve and utility funds for the Utility Deposit Fund.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 2 – BUDGETS AND BUDETARY ACCOUNTING (CONTINUED)

Excess of Expenditures Over Appropriations in Departments and Individual Funds

No funds incurred actual expenditures in excess of budgeted amounts for the year ended September 30, 2020.

NOTE 3 – DEPOSITS AND INVESTMENTS – PRIMARY GOVERNMENT

Total primary government deposits and investments as of September 30, 2020, are summarized as follows:

	Deposits with Financial Institutions	Investments	Total
Cash and cash equivalents	\$ 28,814,737	\$ -	\$ 28,814,737
Restricted cash and cash equivalents	7,791,797	-	7,791,797
Investments	-	28,695,195	28,695,195
Total	\$ 36,606,534	\$ 28,695,195	\$ 65,301,729

Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

State statues authorize the City to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivision of the State of Georgia.

Custodial Credit Risk – Deposits

The City does not have a formal custodial credit risk policy. Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the City will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statues require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government or bond of public authorities, counties or municipalities. As of September 30, 2020, the City had no uncollateralized deposits.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 3 – DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial Credit Risk – Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require all investments (Other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities.

Restricted cash and cash equivalents	138,329
Total component unit	\$ 284,870

Investments

The City's investment policies are authorized by State Statutes and City Ordinances. Permissible Investments include securities of the United States Treasury, agencies and instrumentalities, repurchase agreements, and the Georgia Fund 1 investment pool regulated by the Georgia Office of the State Treasurer.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 3 – DEPOSITS AND INVESTMENTS (CONTINUED)

Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool that follows Standard and Poor's criteria for AAA rated money market funds. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity, and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1.00 per share.

The City is a participant in the Municipal Electric Authority of Georgia (MEAG). The MEAG board approves an annual system budget from which MEAG bills its participants. At the end of the year, adjustments are made by MEAG to each participant's billings to agree with actual cost. Whenever MEAG recovers funds from the City in excess of its actual costs to serve the City, the City can elect to have their funds deposited in MEAG's voluntary flexible operating account fund in lieu of receiving a refund. This voluntary stabilization fund is used to reduce future costs of the City at its discretion while also earning interest.

The City is authorized to direct the MEAG to retain or use the discretionary funds. On September 30, 2020, the City's balance in the discretionary stabilization fund was \$16,820,737.

Investments are categorized into three categories of credit risk:

- 1) Insured or registered, or securities held by the City or its agent in the City's name.
- 2) Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the City's name.
- 3) Uninsured and unregistered, with securities held by the counter party, or by its trust department or agent, but not in the City's name.

NOTE 4 – RECEIVABLES AND TAX REVENUE

Property Tax

Property taxes were levied in September 2019 and payable before December 2019 for the fiscal year 2020 tax. Property tax revenues are recognized when levied to the extent they result in current receivables. The City’s fiscal year 2021 tax was levied on September 30, 2020 and was recorded as taxes receivable in the General Fund. The portion not collected within 60 days of year end is reported as deferred revenue.

The tax rate levied during the fiscal year 2020 for the City’s operations was 9.75 mills (mill equals \$1 per thousand dollars of assessed value).

The City maintains no allowance for uncollectible property taxes at September 30, 2020.

Sales Tax

Colquitt county, Georgia has levied four 1% Special Purpose Local Option Sales Tax Programs (SPLOST) which were passed by referendum in 1994, 2001, 2006, 2013 and 2018. The proceeds from these sales tax programs are used to finance various capital projects. The SPLOST programs are administered by Colquitt County, Georgia.

NOTE 7 – LONG-TERM DEBT (CONTINUED)

Capital Leases

The City has entered into several lease agreements as lessee for financing the acquisition of equipment and a fire station through the Georgia Municipal Association direct installment program. The lease agreements qualify as capital leases for accounting purposes (titles transfer at the end of the lease term) and have been recorded at the present values of the future minimum lease payments as of the date of their inception. These leases are being serviced by General Fund, Water and Sewer Fund and Solid Waste Fund payments with annual interest rates varying from 1.62% to 2.94%.

The following is an analysis of equipment leased under capital leases as of September 30, 2020:

	Governmental Activities	Business-Type Activities Solid Waste Fund
Vehicles	\$ 999,331	\$ 630,393
Less accumulated amortization	<u>(337,141)</u>	<u>(203,279)</u>
Carrying value	<u>\$ 662,190</u>	<u>\$ 427,114</u>
Current amortization	<u>\$ 88,961</u>	<u>\$ 55,052</u>

The following is a schedule of future minimum lease payments together with the present value of the net minimum lease payments on September 30, 2020.

Compensated absences are liquidated by the General Fund.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 8 – LEASING ACTIVITIES

As part of the issuance of Downtown Development Authority revenue bonds, the Authority entered into a lease agreement with the Georgia Department of Labor (DOL) to lease certain property and buildings for use by the DOL. Under the terms of the lease, the DOL will make rental payments in the amount of \$179,460 annually, which shall be paid to the City as agent for the Authority in equal installments at the end of each month. The lease payments will be used for the purpose of paying the principal of redemption premium (if any) and interest on the Downtown Development Authority bonds. The property and building are leased under an operating lease, which expires on November 1, 2028.

On September 30, 2020, the amount of property and buildings lease by the DOL which is included on the Statement of Net Position of the Downtown Development Authority is \$2,301,101, with accumulated depreciation of \$1,083,191.

On September 30, 2020, the minimum future lease payments to be received under the operating lease are as follows.

Year Ended September 30	Governmental Activities
2021	\$ 179,460
2022	179,460
2023	179,460
2024	179,460
2025	179,460
2026 - 2028	358,920
	<u>\$ 1,256,220</u>

NOTE 9 – RESTRICTIONS OF FUND BALANCES

In the governmental fund financial statements, fund balances consist of nonspendable, restricted and unassigned amounts. Restrictions of fund balances represent that portion which is not appropriate for expenditure or is legally segregated for a specific future use. The remaining portion is unassigned.

Fund balance restrictions on September 30, 2020 include:

Capital projects funds

Restricted for specific projects to reflect resources funded by SPLOST and Federal Grants	\$ 6,701,589
Community development	487,991

Special Revenue Funds

Restricted to reflect resources legally restricted for:	
Community development	256,587
Public safety	24,646

Total restricted net position	<u>\$ 7,470,813</u>
-------------------------------	---------------------

CITY OF MOULTRIE
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 10 – PENSION PLAN

Plan Description

The City of Moultrie, Georgia maintains a single employer defined benefit pension plan, the Retirement Plan for Employees of the City of Moultrie (the Plan). The Plan is administered by a board of trustees in accordance with a trust agreement between the City of Moultrie, Georgia and the board of trustees. The board of trustees acts in the dual capacity as the administrator of the Plan and the trustee of the trust fund created in accordance with the Plan and the Trust Agreement. Benefit provisions and contributions are established and may be amended by the City Council. No stand-alone financial report is issued. (See pages 14 and 15 of this report for the plan’s financial statements.)

The Plan covers all full-time employees of the City of Moultrie, Georgia who were hired prior to January 1, 2019. Employees become eligible to participate in the Plan after six months and are fully vested after ten years. Prior to October 1, 1994, the Plan excluded employees for whom the City made contributions directly or indirectly to another retirement program. Employees in this category (firefighters and police officers) became participants in the Plan on October 1, 1994, if they filed an application to participate. Benefit provisions are established by City Ordinance. The Plan provides retirement, disability and death benefits to Plan members and beneficiaries. As of January 1, 2018, the plan is closed to new entrants.

At October 1, 2019, the date of the most recent actuarial valuation, there were 244 participants consisting of the following:

Retires and beneficiaries currently receiving benefits	105
Vested terminated employees not yet receiving benefits	10
Active employees	<u>112</u>
 Total	 <u><u>227</u></u>

Method used to Value Investments

Investments are reported at their fair values. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrued basis. Dividend income is accrued on the ex-dividend date.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 10 – PENSION PLAN (CONTINUED)

Contributions

The City (and individual participants prior to 2018) makes contributions to the Plan. Effective February 1, 2005, all employees were required to contribute 4.42% of their annual earnings to the Plan. The City’s funding policy is to contribute the amount required to fund the Plan benefits as determined by the Plan actuary. Administrative costs are financed through investment earnings.

The annual required contribution for the year ended September 30, 2020 was determined as part of the October 1, 2019, actuarial valuation using the entry age method. The actuarial assumptions included a) an interest rate of 6.5%, net of investment expenses, b) projected salary increases of 3.25% per year and c) no inflation rate assumption. Mortality rates were based on the RP-2000 Mortality Table projected with Scale AA.

The discount rate used to measure the total pension liability was 5.25%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made based on the average City contribution made to the Plan over the prior five years. Based on this assumption, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

Under Georgia law, the pension board is vested with the authority to select the actuarial assumptions. The board makes decisions based on the advice of the plan’s actuary. No experience study has been performed since the plan is very small. Because there are not enough plan participants to develop their own tables, the board relies on generally applicable assumptions.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investments expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Equities	50%	5.00%
Domestic fixed income	50%	1.50%
Total or weighted arithmetic average	<u>100%</u>	<u>3.25%</u>

NOTE 10 – PENSION PLAN (CONTINUED)

Changes in Net Pension Liability:

The total pension liability was determined by an actuarial valuation as of October 1, 2019 with update procedures performed by the actuary to roll forward to the total pension liability measured as of September 30, 2020. Changes in the net pension liability for the year ended September 30, 2020 were as follows:

	<u>Total Pension Liability</u>	<u>Fiduciary Net Position</u>	<u>Net Pension Liability</u>
Balances at September 30, 2018	\$ 16,582,526	\$ (13,089,488)	\$ 3,493,038
Changes for the year:			
Service costs	-	-	-
Interest	842,108	(665,633)	176,475
Unexpected investment income	-	(99,810)	(99,810)
Difference between expected and actual experience	775,807	-	775,807
Contributions - employer	-	(316,844)	(316,844)
Net investment income	-	-	-
Benefit payments	(1,140,237)	1,140,237	-
Administrative expense	-	8,780	8,780
Other	-	-	-
Net changes	<u>477,678</u>	<u>66,730</u>	<u>544,408</u>
Balances at September 30, 2019	<u>\$ 17,060,204</u>	<u>\$ (13,022,758)</u>	<u>\$ 4,037,446</u>

Sensitivity of the Net Pension Liability to Changes in the Discount Rate:

The following table represents the net pension liability of the City, calculated using the discount rate of 5.25%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate.

	<u>1% Decrease (4.25%)</u>	<u>Current Discount Rate (5.25%)</u>	<u>1% Increase (6.25%)</u>
Net pension liability	\$ 6,260,458	\$ 4,037,446	\$ 2,234,233

NOTE 10 – PENSION PLAN (CONTINUED)

Peace Officers' Annuity and Benefit Fund of Georgia

Plan Description:

The Peace Officers' Annuity and Benefit Fund of Georgia (POABFG) is a cost-sharing multiple-employer defined benefit created in 1950 by the General Assembly of Georgia to provide retirement benefits to peace officers. Members of the POABFG are employed by units of government throughout the State of Georgia. The employers of the POABFG's members do not make contributions to the POABFG. The State of Georgia provides non-employer contributions to the POABFG through the collection of court fines and forfeitures. Detailed information about the benefits provided to members is available in the separately issued POABFG financial report which is publicly available.

Actuarial Assumptions:

The net position liability was measured as of September 30, 2019 and the total pension liability used to calculate the net pension liability was based on an actuarial valuation as of that date. The total pension liability in the actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	1.9%
Salary Increases	n/a
Investment rate of return	6.50%
Mortality rates	RP-2014 Healthy Mortality Table

The long-term expected rate of return on pension plan investments was calculated by the POABFG's investment manager as 7.27% using a Monte Carlo simulation in which best estimate ranges of expected future real rate of return (expected nominal returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. The POABFG's administrator determined that 6.50% was a reasonable assumption for the long-term rate of return on plan assets based on the calculation by the POABFG's investment manager.

The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumes revenues will remain level. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 10 – PENSION PLAN (CONTINUED)

Net Pension Liability:

On September 30, 2020, the City did not have a liability for a proportionate share of the net pension liability (asset) of the POABFG because of the related support from the State of Georgia. The amount of the State’s proportionate share of the net pension liability (asset) associated with the City was \$7,171 as of September 30, 2020.

Pension Expense:

For the year ended September 30, 2019 the City recognized pension expense related to the POABFG of \$6,684 and revenue of \$6,684 for support provided by the State of Georgia.

Georgia Firefighter’s Pension Fund

Plan Description:

The Georgia Firefighter’s Pension Fund (GFPF) is a cost-sharing multiple-employer defined benefit created by the General Assembly of Georgia to provide retirement benefits to firefighters. Members of the GFPF are employed by units of government throughout the state of Georgia. Detailed information about the benefits provided to members is available in the separately issued GFPF financial report which is publicly available.

Actuarial Assumptions:

The net pension liability was measured as of September 30, 2019 and the total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2019. The total pension liability in the actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	n/a
Investment rate of return	6.00%
Mortality rates	RP-2000 Employee Mortality Table

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 10 – PENSION PLAN (CONTINUED)

The discount rate used to measure the total pension liability was 6.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability:

On September 30, 2020, the City did not have a liability for proportionate share of the net pension liability of the GFPF because of the related support from the State of Georgia. The amount of the State's proportionate share of the net pension liability associated with the City was \$412,821 as of September 30, 2020.

Pension Expense:

For the year ended September 30, 2020, the City recognized pension expense related to the GFPF of \$118,021 and revenue of \$118,021 for support provided by the State of Georgia.

NOTE 11 – DEFINED CONTRIBUTION PLAN

A 457(a) retirement plan has been established for all full-time employees whereby they can contribute up to the allowable annual contribution of \$18,500 if they choose and can use the catchup allowable amount during their final years before retiring. The plan also serves as the retirement plan for the City Manager and the Finance Director. For the year ended September 30, 2020, the city contributed \$14,430 to the 457(a) plan on behalf of the City Manager and Finance Director.

NOTE 12 – JOINT VENTURES

Southwest Georgia Regional Commission

Under Georgia law, the City, in conjunction with other cities and counties in the eight county Southwest Georgia area, is a member of the Southwest Georgia Regional Commission and is required to pay annual dues thereto. During the year ended September 30, 2020, the City paid \$15,578 in such dues.

Membership in the Commission is required by the Official Code of Georgia Annotated (OCGA), Section 50-8-34, which provides for the organizational structure of the Commission in Georgia. The Commission Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a Commission. Separate financial statements may be obtained from:

Southwest Georgia Regional Commission
P.O. Box 346
Camilla, Georgia 31730

South Georgia Governmental Services Authority

The South Georgia Governmental Services Authority (SGGSA) was created by the South Georgia Governmental Services Authority Act (State of Georgia, House Bill 879) in March of 2001 for the purpose of providing governmental, proprietary and administrative services and facilities to the Cities of Moultrie, Camilla, Cairo, and Thomasville and other subdivisions, agencies and authorities within its area of operation. The SGGSA provides video, internet, telephony and telecom services under the trade name "CNS". Moultrie is a member of the SGGSA along with the cities of Camilla, Cairo and Thomasville, Georgia. SGGSA is accounted for as a joint venture with equity interests by the members and is recorded in the CNS Broadband enterprise fund. The fiscal year of the SGGSA ends December 31. These financial statements included Moultrie's share of SGGSA net income for the SGGSA fiscal year ended December 31, 2019 in the amount of \$1,304,477. The investment has a carrying value of \$3,015,448 on September 30, 2020, which is the amount of Moultrie's share of book value of the entity plus or minus capital contributions made or distributions received from January 1, 2020 through September 30, 2020. The SGGSA board is made up of eight members, two appointed by each participating city for four-year terms.

Separate financial statements may be obtained from:

South Georgia Governmental Services Authority
P.O. Box 1676
Thomasville, GA 31799

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS

NOTE 12 – JOINT VENTURES (CONTINUED)

Moultrie – Colquitt County Development Authority

The MCCDA board is made up of eleven members, four appointed by the County, four appointed by the City and three appointed by the previously appointed eight. The MCCDA is charged with promoting industry and the development of trade, by inducing manufacturing, industrial and commercial enterprises to locate in Moultrie and Colquitt County.

The Moultrie – Colquitt County Development Authority is supported by property tax revenues. Separate financial statements may be obtained from:

Moultrie – Colquitt County Development Authority
P.O. Box 487
Moultrie, Georgia 31776

NOTE 13 – RELATED ORGANIZATION

The City's governing body is responsible to all of the board appointments of the Moultrie Housing Authority. However, the City has no further accountability for this organization.

NOTE 14 – HOTEL/MOTEL TAX

The City has levied a 7% lodging tax. For the year ended September 30, 2020, \$308,218 of hotel/motel tax was collected. Management represents that 100% of the lodging tax received during the year ended September 30, 2020 was used for the promotion of tourism, conventions, or trade shows.

NOTE 15 – RISK MANAGEMENT

The City is exposed to various risks of losses related to torts, thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and General Liability and Worker's Compensation

The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Georgia Municipal Association Group Self-Insurance Worker's Compensation Fund, public entity risk pools currently operating as common risk management and insurance programs for member local governments.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 15 – RISK MANAGEMENT (CONTINUED)

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool’s agents and attorneys, to follow loss reduction procedures established by the funds and to report as promptly as possible and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool’s agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the Worker’s Compensation law of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after the entry of judgment and all expenses incurred for investigation, negotiation or defense.

Group Medical Benefits

The City is self-insured for group medical and dental benefits up to \$50,000 annually per participant. The self-insurance program is administered by a third-party insurance service company. Administrative costs are allocated among the General Fund, Water and Sewer Fund, Electric Revenue Fund, Gas Revenue Fund, Solid Waste Fund, and the Airport Fund. Liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts and other economic social factors. The liability for claims payable is reported in the General Fund. The change in the balance of claim liabilities during the past two years is as follows:

	Unpaid Claims	
	2020	2019
Unpaid claims, beginning of year	140,033	128,683
Incurred claims (including IBNRs)	2,284,026	1,463,190
Claim payments	(2,280,468)	(1,451,840)
Unpaid claims, end of year	\$ 143,591	\$ 140,033

Settlements

During the year ended September 30, 2020, there were no significant reductions in insurance coverage from the prior year and there have been no settlements exceeding insurance coverage in the years ended September 30, 2018, 2019 and 2020.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 16 – COMMITMENTS AND CONTINGENCIES

Litigation

The City is involved in a number of legal matters, which either have or could result in litigation. The City has accrued amounts related to litigation where an outcome unfavorable to the City is probable and the amount can be estimated. In the opinion of the City attorney, the ultimate outcome of these contingencies will not have a material impact on the financial position of the City.

Grants from Governments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability to the applicable funds. The City expects such disallowed amounts, if any, would not have a material impact on the financial position of the City.

Agreements with the Municipal Electric Authority of Georgia

The Municipal Electric Authority of Georgia (MEAG) is a public corporation and an instrumentality of the State of Georgia created to supply electricity to local government electric distribution systems. As provided by State law, MEAG establishes rates and charges so as to produce revenues sufficient to cover its costs, including debt service, but it may not operate any of its projects for profit, unless any such profits inure to the benefit of the public.

As of September 30, 2020, the City is an electric utility participant in MEAG and obligated to purchase all of its bulk power supply requirements from MEAG for a period not to exceed 50 years. The City has agreed to purchase all of its future power and energy requirements in excess of that received by the City through the Southeastern Power Administration at prices intended to cover the operating costs of the systems and to retire any debt incurred by the Authority. In the event that revenues are insufficient to cover all costs and retire the outstanding debt, each participating City has guaranteed a portion of the unpaid debt based on its individual entitlement shares of the output and services of generating units acquired to constructed by MEAG. In addition, in the event of discontinued service to a participant in default, the City would be obligated to purchase additional power subject to contractual limitations. Payments to MEAG are made monthly based on KWH usage. The total payments under these contracts amounted to \$16,791,16 in for the year ended September 30, 2020.

On September 30, 2020, the outstanding debt of MEAG was approximately \$8.1 billion. The City's guarantee varies by individual projects undertaken by MEAG and total approximately \$178.2 million on September 30, 2020.

CITY OF MOULTRIE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 16 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

Agreements with the Municipal Gas Authority of Georgia

The City has entered into a contract for the purchase of wholesale natural gas supplies and related services with the Municipal Gas Authority of Georgia (MGAG) that requires the City to purchase all of its natural gas from MGAG. The gas supply contract with MGAG authorizes MGAG to establish rates and charges so as to produce revenues sufficient to cover its operating costs and retire its bonds issued to acquire long-term gas supplies for sale to its members, including the City. In the event that revenues are insufficient to cover all costs and retire bonds issued by MGAG, the City is obligated to pay its obligation share of the costs of the gas supply and related services MGAG provides to the City, which costs include amounts equal to principal and interest on MGAG's bonds. These obligations, which extend through the year 2019, are general obligations of the City to which the City's full faith, credit and taxing powers are pledged. The City's obligation to MGAG for gas supply costs are based on MGAG costs to provide such supply, including bond issues to purchase long-term rights to bulk supply. The total payments under these contracts amounted to \$1,059,858 for the year ended September 30, 2020.

On September 30, 2020, MGAG's bonds to which the City's obligation share is applicable were outstanding in the approximate principal amount of \$175 million. The City's obligation share of that amount totals approximately \$1.7 million on September 30, 2020.

NOTE 19 – SPECIAL ITEM – TRANSFER OF OPERATIONS

On October 1, 2017, the City transferred various parks and recreation department assets (excluding real estate) and a liability to Moultrie-Colquitt County Parks and Recreation Authority (“MCCPRA”) in a governmental transfer of operations. Following the original transfer, the City leased its parks and recreational related land and buildings to MCCPRA.

On January 21, 2020, the City transferred its parks and recreational related land and buildings to MCCPRA through a deed of trust. The net position transferred, \$1,720,532, consists of the carrying value of the capital assets transferred and is reported on the government-wide statement of activities as a special item.

NOTE 20 – COVID-19 AND SUBSEQUENT EVENTS

The COVID-19 pandemic developed rapidly in 2020 and continues into 2021, with a significant number of cases. Measures taken by various governments to contain the virus has affected economic activity. Depending on the duration of the COVID-19 crisis and continued negative impact on economic activity, the City could experience negative results and liquidity restraints. The exact impact on the City in the subsequent fiscal year cannot be predicted.

Budget-to-Actual Reconciliation

An explanation of the difference between budgetary inflows and outflows and revenues and expenditures determine in accordance with generally accepted accounting principles are as follows:

Sources/inflows of resources:

Actual amount (budgetary basis) of revenue from above	\$ 8,847,594
Difference - budget to GAAP:	
Proceeds from borrowing are reported as other financing resources	<u>(274,764)</u>
Total revenues and reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	<u><u>\$ 8,572,830</u></u>

Uses/outflows of resources:

Actual amounts (budgetary basis) total expenditures from above	\$ 12,082,134
Difference - budget to GAAP:	
Funds provided to a component unit are reported as expenditures in the funds instead of transfers as budgeted	<u>250,000</u>
Total expenditures as reported on the statement of revenues, expenditures and changes in fund balances - governmental funds	<u><u>\$ 12,332,134</u></u>

* Prior expenditures of the SPLOST 2013 wastewater treatment line item have been restated to correct for past reporting errors. For the year ended September 30, 2013, SPLOST 2006 expenditures in the amount of \$344,579 were mistakenly reported as SPLOST 2013 expenditures. For the year ended September 30, 2016, expenditures in the amount of \$2,720,044 funded by other sources were mistakenly included as SPLOST 2013 expenditures. As a result of these corrections, the previously reported amount of \$9,098,873 has been restated to \$6,034,250.

** 2019 SPLOST current period street infrastructure improvement cost have been reduced by \$100,000 for a contribution from a private donor.

*** SPLOST 2019 prior year expenditures have been restated to reflect the proper referendum categories.

CITY OF MOULTRIE
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (“the Schedule”) includes the federal award activity of the City under programs of the federal government for the year ended September 30, 2020. The information in this Schedule is presented in accordance with requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The City has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and City Council
City of Moultrie, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Moultrie, Georgia ("the City"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise City's basic financial statements and have issued our report thereon dated April 8, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control that we consider to be material weaknesses. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2020-001 and 2020-002 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The City's Response to Findings

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

April 8, 2021

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the City Council
City of Moultrie, Georgia

Report on Compliance for Each Major Federal Program

We have audited the City of Moultrie, Georgia's ("the City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Moultrie, Georgia's major federal programs for the year ended September 30, 2020. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2020.

Report on Internal Control over Compliance

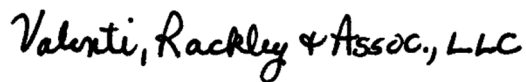

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

\$750,000

Auditee qualified as a low-risk auditee?

_____ yes X no

SECTION II – FINANCIAL STATEMENT FINDINGS

2020-001

Criteria: Proper segregation of accounting functions strengthens internal controls.

Condition: Inadequate segregation of accounting duties among personnel. Certain functions are not segregated.

Cause: Limited staff size

Effect: Increased risk of misstatement or fraud

Recommendation: We recommend that increased management oversight of the accounting function be utilized to mitigate risk.

Management Response: See management's Corrective Action Plan.

2020-002

Criteria: As part of the year-end closing procedures, beginning net position and fund balances should be reconciled to the prior year audited financial statements and general ledger accounts should be reconciled to supporting documentation.

Condition: During the performance of our audit engagement procedures, we noted some beginning net position/fund balance accounts and other balance sheet accounts had not been adjusted or reconciled to supporting records.

Cause: The City's year end process does not adequately address the need to review and reconcile beginning net position/fund balances and other significant balance sheet accounts to ensure that they are in agreement with supporting records and are recorded in accordance with generally accepted accounting principles.

Effect: Various general ledger account balances required audit adjustments.

Recommendation: We recommend that management develop procedures, such as a year-end checklist, and assign responsibilities that ensure balances agree to supporting records at the end of the reporting period.

Management Response: See management's Corrective Action Plan.
